REMARKS

The amendments herein to the specification and dependent claim 30 are for clarification purposes only. The definition is entirely consistent with the dictionary definition of "translucent" (see attached excerpt from Webster's Third New International Dictionary, 1993, page 2429). This is also consistent with the manner in which the term has been used in the application. For example, see dependent claim 29, which more particularly sets forth that in one embodiment the "translucent" window is "transparent."

The Examiner is invited to contact the undersigned should any questions remain.

Respectfully submitted,

A GENUINE MERRIAM-WEBSTER

The name Webster alone is no guarantee of excellence. It is used by a number of publishers and may serve mainly to mislead an unwary buyer.

Merriam-Webster is the name you should look for when you consider the purchase of dictionaries or other fine reference books. It carries the reputation of a company that has been publishing since 1831 and is your assurance of quality and authority.
